

# Cameron Harris - Properties

## George Square, Dunfermline

The development consists of five two-storey office pavilions in an attractive tree-lined avenue setting. Externally the development, which is of simple stylish design, benefits from ample parking and illuminated landscaped gardens. Internally, attention has been given to the practical details which are so important for an efficient and comfortable working environment. There is an underfloor heating system, suspended acoustic ceiling tiles and air conditioning if required. Finishes throughout are designed to be attractive and good quality. The internal layout is entirely flexible so that it can be completed to suit the specific requirements of the occupier.
